

DATASHEET · UPHOLSTERY FABRIC

# Faux suede

## IM2202

Woven upholstery fabric in 100% polyester with a soft, matt surface that looks like suede. For sofas, chairs, headboards and cushions.

| MATERIAL       | WEIGHT                    | WIDTH         | ABRASION            | ROLL |
|----------------|---------------------------|---------------|---------------------|------|
| 100% polyester | 330 g/m <sup>2</sup> ± 5% | 145 cm ± 2 cm | > 45,000 Martindale | 50 m |

### Technical data

| PROPERTY                              | METHOD         | RESULT                |
|---------------------------------------|----------------|-----------------------|
| Abrasion resistance (Martindale)      | EN ISO 12947-2 | over 45,000 revs      |
| Pilling after 2,000 revs              | EN ISO 12945-2 | 4 (scale 1-5)         |
| Seam slippage, warp / weft            | EN ISO 13936-2 | 2.0 / 1.5 mm          |
| Tensile strength, warp / weft         | EN ISO 13934-1 | 1,237 / 394 N         |
| Tear strength, warp / weft            | EN ISO 13937-3 | 46.3 / 36.4 N         |
| Colour fastness to rubbing, dry / wet | EN ISO 105-X12 | 4-5 / 3-4 (scale 1-5) |
| Colour fastness to light              | EN ISO 105-B02 | 4 (scale 1-8)         |
| AZO dyes                              |                | not detectable        |
| Chemicals                             | (EC) 1907/2006 | REACH compliant       |
| Certification                         |                | OEKO-TEX STANDARD 100 |

#### SURFACE

The surface is water repellent. Spilt water, coffee and wine form droplets and do not soak into the fabric, which gives time to wipe up.

#### BACKING

Thin layer of felt: white on the light colours and black on the dark ones. See the colour list below.

#### CARE

Wipe up spills straight away with kitchen paper or a dry cloth. Tougher stains come off with a microfibre cloth and a little mild soap in water. Always test on a hidden spot first.

#### ORDERING

Order from 10 m per colour. A full roll is 50 m. All 30 colours share the same weight, width and abrasion resistance, so they can be mixed in one project.

### Colours

30 colours ☐ white felt ☒ black felt

|           |           |                                     |           |               |                                     |           |          |                                     |           |             |                                     |

Test results are indicative averages from several samples, measured by an independent laboratory using the methods above (specified to DIN EN 14465). Slight shade differences between production batches can occur. Pilling and single pulled threads can occur in all upholstery fabrics. Dark fabrics can transfer colour to light ones, and sunlight and heat can change the colour over time.
